

May 5, 1975

working for the federal government somewhat subsidized by the state and, therefore, we added in the Departmental Administration, we added 10 up to 17.7. Now you will find, for instance, starting on line 14, and if you in the future don't want this much detail, why you can stop me. Senator Stull, I would appreciate if you would take just a moment and indicate your thinking in regard to predator control as we increased this over the Governor's recommendation. Mr. President, if it is all right, I would like to operate this way and call upon various members of the Committee.

PRESIDENT: Senator Stull.

SENATOR STULL: Mr. President and members of the Legislature, as Senator Marvel said, I did make a motion to adopt a sum higher than what the Governor had recommended and I increased that \$60,000 to \$120,000. Now that will get the federal people in here and I don't have the figure right in front of me but I think that the federal people come in, that we will have somewhere around \$400,000 and some in this program and the problem we have coyotes that are actually attacking steers and especially when cows are calving, they get to the cow and we are having loss in mature cattle and it seemed to me that with this problem and the importance of agriculture to the economy of Nebraska, it was justified in putting this money in so that we could really attack this problem.

PRESIDENT: Senator George.

SENATOR GEORGE: One quick question of Senator Marvel.

SENATOR MARVEL: Yes sir.

SENATOR GEORGE: Senator Marvel, you said that the \$60,000 was increased to \$120,000.

SENATOR MARVEL: Yes.

SENATOR GEORGE: This here shows the amount of \$155,344 on line 14 so there is more than...

SENATOR MARVEL: This has been the original administrative cost, \$35,344 and we added to that \$120,000 that the various agencies wanted. That's where you get the \$155,344.

SENATOR GEORGE: Thank you.

SENATOR MARVEL: I am going to call you attention to the top of Page 3 to language that you will find in various areas, the Health Department and the Fire Marshall's office, that has to do with the various inspection activities and we are asking these three departments to report this next year to show us why we have to constantly have an overlapping of inspection people in an attempt to try to shake this down and figure out where the real inspection ought to be.

PRESIDENT: Senator Marvel.

SENATOR MARVEL: Yes.

PRESIDENT: The Clerk has a motion on the desk.
